

Validation Summary Report (VSR)

Project

AI-Assisted Computer System Validation (CSV) – Login Module

Purpose

The purpose of this Validation Summary Report is to summarize the validation activities performed for the Login Module of a GxP regulated application and confirm the system is fit for its intended use.

Scope

User Login, Username Validation, Password Validation, Invalid Login Handling, Account Lock, Session Timeout, Logout Functionality, Audit Trail Verification.

Validation Deliverables

URS, FRS, Risk Assessment, Traceability Matrix, Test Cases, Test Evidence, Validation Summary Report.

Test Execution Summary

Total Test Cases: 20 | Passed: 20 | Failed: 0

Deviations

No deviations were observed during validation testing.

Issues

No critical or major issues were identified. All observations were resolved before validation completion.

Traceability

100% requirements were traced to functional requirements and corresponding test cases.

Validation Conclusion

The Login Module met all predefined acceptance criteria and is considered Validated and Fit for Intended Use. Compliance considered: GAMP 5, 21 CFR Part 11, EU Annex 11 and ALCOA+ principles.
